

Lisa Page

Chief Financial Officer

“When both of my parents developed dementia, I didn't know how we would afford the care they needed. They had spent their lives as hardworking school teachers, but nursing home care was overwhelming financially. Alabama Family Trust helped us establish a trust, guided us through the Medicaid process, and gave us peace of mind knowing my parents' assets were being managed properly. I no longer had to constantly worry about how we would pay for their care. The team at AFT was compassionate, knowledgeable, and always willing to help. I can't imagine going through that journey without them.”

WALLACE DAVIS, FAMILY MEMBER AND NOW AFT BOARD MEMBER

“Alabama Family Trust is a very caring trust. We have been just amazed at the far-reaching benefits of the trust as far as helping people move forward. It helps them not just get their basic needs met, but going above that making their quality of life to the best it can possibly be.”

PAULA THORNTON, NURSE CASE MANAGER

First Party Pooled Special Needs Trust (d)(4)(C) Trust

- A trust containing the assets of an individual who is disabled (as defined in section 1382c(a)(3) of this title) that meets the following conditions:
- (i) The trust is established and managed by a non-profit association.
- (ii) A separate account is maintained for each beneficiary of the trust, but, for purposes of investment and management of funds, the trust pools these accounts.
- (iii) Accounts in the trust are established solely for the benefit of individuals who are disabled (as defined in section 1382c(a)(3) of this title) by the parent, grandparent, or legal guardian of such individuals, by such individuals, or by a court.
- (iv) To the extent that amounts remaining in the beneficiary's account upon the death of the beneficiary are not retained by the trust, the trust pays to the State from such remaining amounts in the account an amount equal to the total amount of medical assistance paid on behalf of the beneficiary under the State plan under this subchapter. (underlines added)

Alabama Code § 38-9B-1
Title 38 – Public Welfare

Section 38-9B-1

Legislative findings.

(a) The Legislature finds and declares the following:

- (1) It is an essential function of state government to provide basic support for persons with a mental or physical impairment that substantially limits one or more major life activities, whether the impairment is congenital or occurs by reason of accident, injury, age, or disease.

- (2) The cost of providing basic support for persons with a mental or physical impairment is difficult for many citizens to afford, and they are forced to rely upon the government to provide that support.

Medicaid and Alabama Family Trust

How can funding an AFT account help with Medicaid eligibility?

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Topics for Discussion

- Spend down for Medicaid
  - Some people have too much resources to qualify for Medicaid. This amount is called excess resource. Spending the excess resources is called Spend Down. Some people are told to spend the excess resources by paying the nursing home bill. AFT offers another option.
- How to Create and Fund the trust
- Life Beneficiary and Trust Disbursements
- Cost and Fees
- Distributions at Termination of Trust
- Benefits of an AFT account

Alabama Medicaid

- To receive long term care nursing home benefits, a person must meet general medical and financial criteria:
  - The person must be a U.S. citizen; or a qualified alien
  - The person must live in Alabama and intend to stay in Alabama
  - The person must meet medical criteria – (should not be an issue if the resident is admitted to the nursing home)
  - The person's gross income must be at or below $2,982* (2026)
  - The person's countable resources must be at or below $2,000
  - No penalties or use solutions for penalties

*Excludes $30 personal needs allowance

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Simplify the Spenddown

- When the resident has too much resources to qualify for Medicaid, one solution is to tell the family to pay the nursing home until the funds are exhausted; but there is a better way.

- In reality, it is better for a nursing home resident to set up a trust with excess resources. Funds may then be available to:
  - Pay during a penalty period and/or
  - Provide funds for extra needs of the resident for which Medicaid does not pay.
    - Private room
    - Caretakers in addition to nursing home staff, if appropriate

Resource problems can be greatly reduced using an AFT trust.

Alabama Medicaid: Penalties

- Medicaid looks at five years of the applicant's finances ("look back period").
  - This includes ALL accounts, IRAs, CDs, bonds, land, etc.
- GIFTS ARE NOT ALLOWED
- Gifts result in a penalty being imposed by Medicaid

AFT
ALABAMA FAMILY TRUST

Examples of Penalty Issues

- John and Mary gave their son a total of $60,000 in 2020 - 2022 when he was out of work.
- A Medicaid applicant gave a granddaughter $20,000 to help with college tuition.
- A child withdrew $25,000 from parent's account without permission, but parent did nothing to get the funds back.
- A father gave grandson his Ford F250 pickup truck

A Pooled Supplemental Needs Trust a/k/a Special Needs Trust (SNT).

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Special Needs Trust a/k/a Supplemental Needs Trust

- An SNT is designed to protect the resources of a person who has a disability.
- The person can place resources in an SNT enabling them to qualify financially to receive means-based government benefits.
- How? SNT assets are not counted against the person for purposes of financial eligibility for government benefits.
- The trust assets can be used to supplement the needs of the beneficiary.

A Supplemental Needs Trust can help persons qualify for benefits or prevent losing their existing government benefits.

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Types of Supplemental Needs Trusts

- First-Party Supplemental Needs Trusts - Created with resources of the person with a disability. These resources may be savings and investments, the proceeds of legal settlements, gifts, inherited assets, etc.

- Third-Party Supplemental Needs Trusts – Created with assets belonging to someone other than the person with a disability.

- Pooled Trusts – May be First Party or Third Party

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

First-Party Special Needs Trusts
Pooled Trusts

If the person with a disability is 65 years of age or older, he or she **must** use a pooled special needs trust.

Pooled trusts are addressed in 42. U.S.C. § 1396p(d)(4)(c)

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Pooled Supplemental Needs Trusts Create and Fund

- Under federal law, a pooled SNT trust can be created by the parent, grandparent, or legal guardian of such individuals, by such individuals, or by a court. 42 U. S. C. § 1396p(d)(4)(C)

- However, the federal provision **ALLOWING** an SNT to be established by these people does not give them the **AUTHORITY** to do so. Authority is granted by state law.

- Who can Create and Fund the AFT account
  - The individual (if competent)
  - Attorney in Fact (if granted authority)
  - Conservator (if granted authority)
  - Parent or authorized person - for litigation proceeds
  - Any non-beneficiary – via will or trust

Pooled Supplemental Needs Trusts Attorney in Fact

- **Prior to 2012**, Alabama had *no law* concerning whether any particular powers granted to an attorney-in-fact had to be listed specifically in the document. For that reason, an Alabama power of attorney executed prior to 2012 that contained broad powers, such as "**the power to do any act that I could perform myself**," would allow the attorney-in-fact to execute an AFT trust agreement.

- In 2011, the Legislature adopted a modified version of the Uniform Power of Attorney Act, which became **effective on January 1, 2012**, but which provided that powers of attorney *executed prior to that date remained valid and were not subject to any new provisions in the new law*.

- **The new law** provides that the agent cannot establish any trust of any kind using a power of attorney unless the document includes a ***specific power*** to that effect. In other words, "the power to do any act that I could perform myself" would not allow execution of the AFT first-party special needs trust agreement.

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Pooled Supplemental Needs Trusts Attorney in Fact

- Caution: If the power of attorney document contains a specific power authorizing creation of a trust for the beneficiary, but that power authorizes only the creation of a trust that is **revocable**, that power would NOT allow execution of an AFT first party special needs trust.
  - A First Party SNT must be **irrevocable** if the goal is for the trust assets to be non-countable by Medicaid.

- Note that the power of attorney document does not have to state specifically that the agent can create an irrevocable trust. A broad power to **create a trust** is sufficient.

LGB Create, amend, revoke, or terminate an *inter vivos* trust, by trust or applicable law

Pooled Trust – Create and Fund Conservator

- Alabama Code § 26-2A-152 (1975, as amended) which lists the powers of a conservator does not include the power to **CREATE** a trust.

- Under Alabama Code § 26-2A-154, a court having equity jurisdiction may **ENLARGE** a conservator's powers.

- Alabama Code Sections 26-2A-136(b)(2) and (b)(3) allow a court to grant the conservator authority to **CREATE AND FUND** an irrevocable trust.

Limited Conservatorships (One-Time Transaction)

When creating a first-party trust, an attorney can petition the court for a limited conservatorship asking the court to appoint a conservator to perform the one-time act of creating and funding the trust for the individual (sometime referred to as a single transaction).

For example, when the individual . . .

- Does not have the capacity to sign the trust
- Does not have an agent named in a proper durable power of attorney

Code §26-2A-137

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Litigation Proceeds Minor or Incompetent Person

- Under Alabama Code § 6-5-390, when a child is injured, the child's parent can bring a claim on the child's behalf.
- Under Alabama Rules of Civil Procedure (ARCP) Rule 17 (c), a "next friend" or other designated person can sue on behalf of a minor or incompetent person.
- As part of the order approving the settlement, the court can include an authorization for the person to **create** the AFT irrevocable trust for the benefit of the minor or incompetent person and to **fund** the trust with settlement proceeds. This will be a first-party trust.
- If the court does not authorize the creation and funding of the trust, then a conservatorship (or single transaction) may be required.

AFT
ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Probated Will or Trust Agreement

- With a will or trust, someone must have the authority to **create and fund** the trust.
  - For example, the parent's will devises an inheritance to a child with a disability, *in trust*. It includes terms that authorizes the Personal Representative and/or Trustee to execute all documents necessary to **create** a trust with the Alabama Family Trust and to transfer the child's share into the trust ("**fund**"). This is a *third-party* trust. No Medicaid payback provision required.

- Note that if the will or trust gives the inheritance *outright* to the child, and a court order is obtained authorizing the creation and funding of the trust, the trust is a *first-party* trust.
  - A Medicaid payback provision is required.

ALABAMA FAMILY TRUST
Administering Special Needs Trusts

Life Beneficiary & Trust Distributions

- Life Beneficiary
  - Can be any person with a disability
  - Can be of any age

- AFT's primary purpose is to supplement the needs of the beneficiary while making certain that assets are not used in a way that would cause the beneficiary to be disqualified for benefits.
  - Thus, distributions must be within regulation guidelines.
  - **One requirement is that distributions must be solely for the benefit of the beneficiary.**
    - The trust can only benefit one beneficiary at its creation and during the remainder of that beneficiary's life. (POM SI 01120.201F.2.a)

AFT
ALABAMA FAMILY TRUST

Life Beneficiary and Trust Distributions

- Included in the allowable distributions under the sole benefit criterion is a disbursement for non-beneficiaries in certain scenarios:
  - Certain travel expenses, including but not limited to, expenses paid to a third party that are necessary for the SNT Beneficiary to obtain medical treatment.
  - Caretaker expenses for trips, for example.

Benefits of Alabama Family Trust

- AFT can shelter the person's spend-down and allow the person to retain eligibility or become eligible for SSI and Medicaid.
- The person's money can be used for his/her needs instead of spending down (or quickly wasting) the money.
- Family does not need to worry about the Social Security and Medicaid regulations because AFT will handle compliance issues.
